Having such a great group of students has allowed us to take some special field trips to Seattle and around the valley while not cramming for quizzes or finishing classwork. We have also had the opportunity to go hiking, skiing, geocaching, and snowshoeing.

The students have pushed themselves personally and academically and it has been wonderful to see them grow. As a group they have reached beyond the usual social cliques and have become a group of supportive friends from varied backgrounds. The environment out here this year has been very supportive and encouraging and it's been great to be along for the ride. Thanks for a wonderful year and I'm excited to see all the amazing things you will achieve and all the dreams you will live in the future! " --Travis Blue
