

INSTRUCTION

Academic Acceleration

The board recognizes the need for all high school students to have greater access to rigorous advanced courses, including dual credit programs. To that end, the district will provide high school students the opportunity to enroll in College in the Classroom, Advanced Placement, and postsecondary certification courses.

Students who successfully complete the advanced courses will then be enrolled in the next most rigorous level of advanced courses, with the ultimate goal being the student's obtainment of postsecondary credits while in high school.

The district will notify students and parents/guardians regarding the academic acceleration policy and the advanced courses available to students. The district will provide the parent/guardian with an opportunity for the student to opt out of participation in the academic acceleration process and enroll in an alternative course or program that aligns with the student's high school and beyond plan goals.
